Essential Blush with Deep black headboard

We believe a
**well
rested
world**
is a more
beautiful world

We've been working on the best sleep for tomorrow for over 130 years. Every bed is made with attention to details, the environment, and the future.

All because when you're well rested, you feel it: you are relaxed, energetic, sharp, and friendly. You are awake.

Let's introduce:
Original

The perfect base

The Original is a complete bed with a clear design. It is based on the Auping mesh base and mattress. Which is exactly what's needed for a good night's sleep. Both mesh base and mattress can be ergonomically attuned to your body.

The "Good Industrial Design" award is the most important award for the industrial design of products in the Netherlands.

A headboard for every size,
with or without extension.
Even for single beds

A clear shape and a powerful frame,
combined with a mesh base of your choice:
flat or adjustable.

Original Deep black, headboard upholstered with Facet 1001 Dark grey

Complete your Original

Complete your Original with a headboard in the fabric of your choice. With no less than 89 fabrics to choose from, you can mix and match all colours, fabrics and structures.

All of the collection's fabrics are of the highest quality, with a sustainable nature, and are wonderfully soft and comfortable.

At Auping you can choose from three categories of fabric:

Fabric group A: uni coloured

Fabric group A is our basic collection of uni coloured fabrics.

Fabric group B: rich effects

Fabric group B contains fabrics with rich effects and a luxurious variety in structure and relief. Such as Points for example. This fabric is made from yarn coming from clothing collections and leftover fabric. By reusing such materials we no longer need to use up new resources for Points. Another way to think and act sustainably.

Fabric group C: refined weave textures

Fabric group C includes soft wools, fine woven durable fabrics with refined textures and special details from our fabric supplier Kvadrat. Clara, for example, combines uncoloured, unbleached sheep's wool with an exceptional blend of bright colour accents, while the unbleached, undyed woven woollen Molly retains the sheep's natural colour entirely.

kvadrat

Auping works in close partnership with the trendsetting and high-quality Danish textile manufacturer Kvadrat.

Let's introduce:
Auronde

A true design classic

The Auronde is a true design classic made from wood with characteristic aluminum details.

Designed by Frans de la Haye in 1973. Its rounded shapes and bright colours were revolutionary back then.

And once again it's revolutionary: with new materials and the possibility to adapt the details to your wishes, you get the same great design from back then, with today's contemporary design.

A man with grey hair, wearing a black long-sleeved shirt and white trousers, is sitting on a dark blue bed frame. The bed has a light blue duvet and a dark blue headboard. The room has a minimalist design with a white wall and a dark blue bedside table with a lamp. The man is looking directly at the camera with a slight smile.

“
To me, the bed
is a sacred place;
the only place where
we can achieve utter
bliss and safety.
”

Frans de la Haye

Through the designer's eyes

A bed that lasts a lifetime, that's easy to assemble, and just as easy to disassemble. Without losing sight of the comfort and design.

That was what Frans de la Haye had in mind when he designed the Auronde. And that's why he opted to combine exceptionally strong beech wood with striking details, thus bringing design and sustainability together perfectly.

A photograph of a modern, minimalist bed frame and a matching table, both made of light-colored wood. The bed frame has a white mattress. The table is attached to the side of the bed. On the table, there is a white mug with a brown logo and a light blue teapot with a red lid. The background is a plain, light-colored wall.

Focus on **functionality** and **design**

The aluminum buttons on the legs of the Auronde are an unmistakable component of the design. Because you can choose from 11 different colours, they give your bed an original character. In addition to this, they connect the separate parts of the bed frame. As a result, you can easily disassemble the Auronde. This is very useful when you move, for instance.

colours

ā

Recyclable
aluminum frame

A 100% recyclable bed

Made of real materials such as wood, steel and aluminum that are 100% recyclable, the Essential has a sincerely sustainable design. Here at Auping, we are very proud of it. You can sleep easier knowing that your choice of bed is not only going to give you a good night's sleep, but is also good for the environment.

ā

A coarse woven fabric in the
same colour provides a nice
contrast in structure

Ultimate comfort

Complete your perfect bed by choosing a flat or (electrically-) adjustable mesh base and a mattress that suits your body. The Auping mesh base, combined with an Auping mattress, offers exactly the right distribution of body pressure, ensuring you get a good night's sleep.

Available in
two heights

The top mattress
provides extra comfort

The Essential can also be combined
with upholstered mattresses

KÖHLER WILMS
| product design

"We think it's important that the Essential is made available in many diverse styles so it can be used in various interiors over a long life," say Claudia Köhler and Irmy Wilms, the Berlin design duo who designed the Essential bed model for Auping.

Auping Essential is the winner of the "red dot design award" 2012.

Since 1953, the IF Product Design Award has been one of the most important innovative product design awards.

The "Good Industrial Design" award is the most important award for industrial designed products in the Netherlands.

An eye for detail

At Auping, design means products with focus and attention to detail. With Match, you can see the perfect balance between comfort, individuality and timeless design. Are you looking for a straight shape? Choose the wooden surround. If you prefer a rounder shape in your bedroom, go for the aluminum bed frame.

In-house design

The Match is designed by our own Auping Design team of industrial designers, engineers and stylists. For every design, a great deal of thought is put into the material and design choices.

Sleep even better? Everything is possible with Auping pillows and duvets

A great sleep depends on so many different factors. In addition to your mesh base and mattress, your pillow and duvet are also really important. Your pillow should support your neck and head, allowing your neck muscles to relax entirely. And a duvet that wraps nicely around your body will prevent gushes of annoying cold air. Auping ensures that you can wake up each morning feeling refreshed and full of energy.

A duvet cover not only offers comfort, it also creates a lovely ambiance in the bedroom. The Auping collection comes in a whole range of designs and colours that blend beautifully with the latest fashion and design trends.

All of our duvet covers have an extra long tuck-in flap

Choose the perfect Auping pillow and duvet to suit you

A good night's sleep also depends on the right room temperature. It should neither be too cold nor too warm. That is why Auping pillows and duvets feel light and airy and they ventilate perfectly. This creates the perfect temperature, allowing you to wake up feeling refreshed.

Your choice of duvet depends on your own personal preferences. Which feeling is right for you? Do you prefer to feel warm or a little cooler in bed? You can choose a summer or all-year duvet. When the nights get really cold or if you are quick to feel the cold then these are easily combined with buttons to create a 4-seasons duvet.

Responsible Down Standard (RDS)

Auping sells down duvets and pillows that are certified according to the Responsible Down Standard (RDS). Read more on auping.com/rds
