# Specially configured for the best night's sleep:

## your unique Auping mattress

Sleep is a basic human need and it is essential for an energetic day. An Auping mattress guarantees you will wake up refreshed every day, with your batteries fully charged.

Every person is different; every body is different. That calls for custom solutions. And freedom of choice too.

Auping mattresses consist of carefully developed layers, each of which has a specific purpose. Everything is just where it should be, and made of high-quality materials. The additional advantage is that you never need to turn your mattress ever again.

An Auping mattress gives you the support you need, where you need it. It takes pressure off your spine and lower back, and provides your shoulders and hips with extra support.

You may not be aware of it, but during the night, you turn about 30 times. The DPPS® pocket springs in the middle layer of the mattress ensure you can turn effortlessly and they give you the support you need in every sleeping position. A good mattress provides optimal ventilation and eliminates moisture, keeping your bed clean and fresh.

You can choose from five different models, each of which is available in different lengths, support types and comfort levels. There is an Auping mattress for everyone, regardless of the chosen bed base. Discover our complete range of mattresses in this brochure.

**All Auping mattresses have the following features:**

All Auping mattresses provide optimal ventilation and eliminate moisture, keeping your bed clean and fresh.

At the core of every Auping mattress, you will find our unique DPPS® pocket springs, which offer optimal support, allowing you to turn effortlessly without waking up.

All Auping mattresses are suitable for all bed bases and they are available in a variety of sizes, both single and double, and in lengths of up to 220 cm.

# Auping Inizio

If you are looking for Auping quality at an affordable price, Inizio is the ideal option. Enjoy better, super comfortable sleep on a ventilated mattress with 3 comfort zones that can be used on any bed base.

## Auping Adagio

Enjoy superior sleep thanks to Adagio. 5 zones and a Latex Perfo ventilated comfort layer create a highly resilient mattress that follows the contours of your body.

*Prefer a long(er) mattress?  
No problem! We offer them in  
lengths of up to 220 cm.*

## Auping Cresto

Cresto gives your sleep a quality boost thanks to its 5 zones, including flexible shoulder support. The sustainable Latex Pura gives this mattress an extra soft, resilient feel.

*All Auping double mattresses can  
be supplied with two different  
firmness levels in the core  
of the mattress*

ā

### Durable comfort

All Auping mattresses contain latex in the comfort layer for resilience when lying down. The Latex Perfo in the Adagio mattress and the Latex Pura in the Cresto mattress have been specially developed for Auping. The premium Maestro and Vivo mattresses are enriched with the unique Vita Talalay Origins®: a natural comfort layer without artificial additions, produced in a sustainable way. This ensures that you get maximum sleeping comfort and a durable night's rest.

## Auping Maestro

Maestro guarantees extremely comfortable sleep with optimal support. The extra high DPPS® pocket springs and the Visco material in the shoulder zone of this quality mattress relieve pressure and let your shoulders sink in comfortably.

Enjoy the extra shoulder support night after night

Flexible support for your hips

## Auping Vivo

The top-of-the-range, full-option Vivo is the ultimate choice for anyone who sets the highest of standards. Enjoy optimal ventilation and comfort while lying down. This mattress boasts 5 zones in its ergonomic core, as well as support in the shoulder area and an additional, flexible hip zone.

## The ticking

The mattress cover, or ticking, is soft, breathable and can be cleaned. This ticking is easy to zip off and there is choice of two variants for Cresto, Maestro and Vivo.

The Breeze ticking for the Maestro and Vivo mattress features Climawatt for even better ventilation and an extra soft feel. This cover does not contain any wool and it is washable in the washing machine at 60°C. Ideal for people who suffer from wool or dust-mite allergies.

The Nature ticking is made of wool and feels incredibly soft. It can be cleaned chemically.

For the Inizio and Adagio mattress, the removable ticking comes as an extra.

# The Auping mattress and mesh base: the perfect combination to start the day feeling fresh and well-rested

Auping was the first to invent the mesh base over 125 years ago. Why? Because we wanted to make sleeping more comfortable and hygienic. The arrival of the mesh base was revolutionary, and since then we have continued to refine its design, making it fit your body even better. Every detail contributes to the ultimate comfort.

**The perfect foundation for a good night's sleep**

The ventilating mesh base with its 80% open structure, in combination with the refined design of the frame, makes it the perfect basis for a good night's sleep. Pick a mattress for this bed base that suits you best. A mattress connector joins the mattress and the mesh base together to ensure that your mattress will not shift.

Would you like to know more? Visit [www.auping.com/en/bed-bases](http://www.auping.com/en/bed-bases)

*Would you like to be able to  
adjust your bed? Then choose one  
with a manually or electrically-  
adjustable mesh base*

*Thanks to over  
10,000 support points,  
your body is evenly  
supported*

# Bed linen to help you sleep even more soundly

A good night's sleep is not only determined by your mesh base and mattress; your duvet and pillows also play an important role. After all, a pillow should support your neck and head in a way that allows your neck muscles to fully relax. The duvet must follow the contours of your body to avoid draughts of cold air. Together these help to ensure that you wake up feeling rested and full of energy.

A duvet cover not only provides more comfort, it also creates an ambience in the bedroom. The Auping collection consists of various prints and colours and it fits beautifully with the latest design and home-fashion trends.

*All of our duvet covers feature an extra-long tuck-in end*

ā

*The right combination of pillow and mattress provides the perfect support*

## Choose the perfect Auping pillow and duvet that suits you

A good night's sleep also depends on the right room temperature. It should not be too cold, but certainly not too hot either. For that reason, all Auping pillows and duvets are breathable and feel lovely, light and airy. This creates the perfect temperature allowing you to wake up feeling refreshed.

The choice of duvet heavily depends upon your personal preferences. What filling do you like? Do you like it warm in bed or a little cooler? You can choose a Summer or All Year duvet. If you get cold quickly or when the nights are cold, these duvets are easily combined to create a 4-seasons duvet.

## Responsible Down Standard (RDS)

All down products in the Auping range are certified according to the Responsible Down Standard and therefore comply with strict animal welfare requirements. You can find more information on [www.auping.com/rds](http://www.auping.com/rds).

## Sleep better with sustainable and honest materials

### Beds for today and tomorrow

As the market leader, we take responsibility for today and tomorrow. Not because it is expected of us, but because we think we should. The first steps have been taken and we aim for all of our business processes to be C2C® by 2020, making Auping the first Cradle to Cradle® bed company in the Netherlands. You can find more information on [www.auping.com/c2c](http://www.auping.com/c2c).

## Royal Auping

### A Dutch success story

**In 1888, Johannes Auping, a blacksmith in Deventer, was asked to make a well-ventilated bed for the local hospital. It was in his forge that Auping conceived and built the first mesh base bed.**

This was the start of a success story that also resulted in the 'Royal' label being awarded in 1988, exactly one century after that very first bed. These days, Auping is the largest independent bed manufacturer in the Netherlands and the Auping range is sold in over 500 shops in over 30 countries world-wide, including the Benelux and Germany.

For over 125 years, Auping has been working hard to create the ultimate in comfortable sleeping solutions for the future, bringing passion and curiosity to the job. High quality, comfort, design and sustainability are our focal points. In this way, Auping does everything it can to ensure that you sleep well each night. This benefits not only your nights, but also your days. This is the very reason we speak of: **Auping nights, Better days.**

We would be happy to help you choose the mattress that perfectly suits you and your body
